# HOW TO ENABLE POP-UPS WITH GOOGLE CHROME
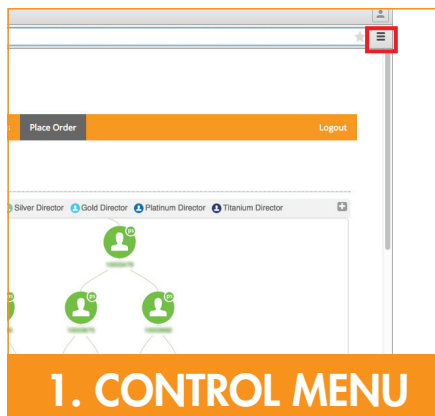

1. ALERT POP-UP AT TOP RIGHT

Alert is provided at the top right corner of the screen to notify user a pop-up window has been blocked. Click "Allow once" or "Options for this site." If "Options for this site" is expanded, you can always allow or view more setting options.
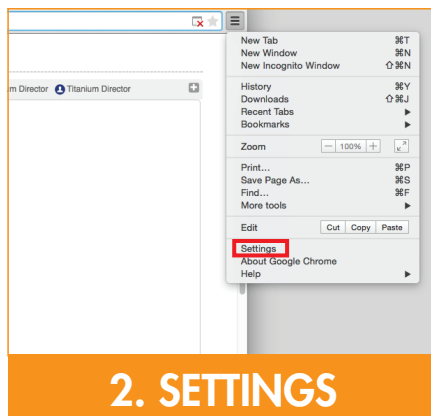

2. ALLOW POP-UPS

Either choose to "Always allow pop-ups from mylifepharm.com or click "Manage pop-up blocking" to see other options.

If you do not see the pop-up blocking notification at the top corner of the screen, follow the instructions below to enable pop-up windows for this site.
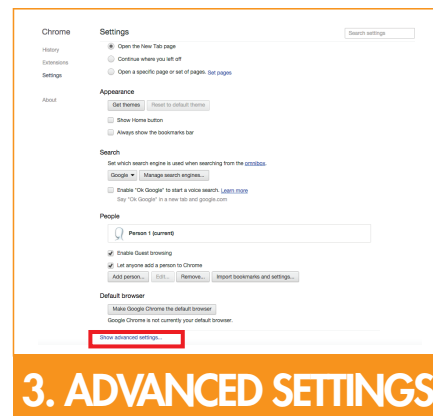

1. CONTROL MENU

Click on the Google Chrome control menu located at the top right of screen to expand options.
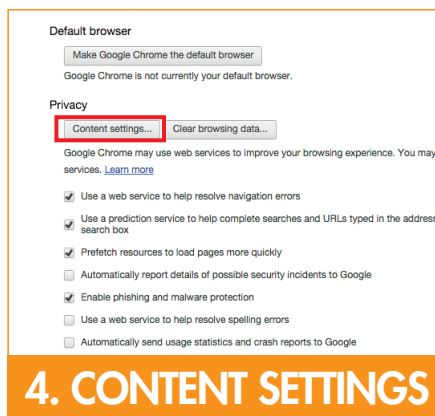

2. SETTINGS

From the expanded options, click on "Settings."

3. ADVANCED SETTINGS

From Google Chrome Settings page, click on "Show advanced settings…."
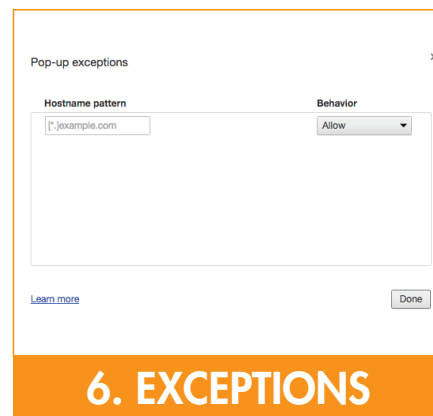

4. CONTENT SETTINGS

Under "Privacy," click on the "Content settings" button.

5. POP-UPS

From the Content settings page, scroll down the page and under the "Pop-ups" heading, click on "Manage exceptions…"

6. EXCEPTIONS

From this window, you can enable pop-ups from any website. To enable pop-up windows for a particular site, copy the URL (http://mylifepharm.com) from the site you would like to enable pop-ups from, and paste it in the "Hostname pattern" field, then select "Allow" from the pulldown menu. When you are finished, click "Done".
